

Photonic Body Layout for _____ Date _____

Goal(s)

Stone Placement

If a photo of the person is not available, or if the image is not of the person's whole body, you can use a "generic" layout diagram like this. Write the person's name on the page and/or attach whatever photograph is available. Then place the stones in appropriate positions on the diagram. You can copy this diagram or get it digitally from the Heaven and Earth website. Search for "Generic Photonic Body Layout."]
